### CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2022 AND 2021

(Unaudited - Expressed in Canadian Dollars)

# NOTICE OF NO AUDITOR REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

In accordance with National Instrument 51-102 Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of these condensed consolidated interim financial statements they must be accompanied by a notice indicating that these condensed consolidated interim financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management. The Company's external auditors have not performed a review of these condensed consolidated interim financial statements.

(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Argentina Lithium & Energy Corp. (the "Company") was incorporated on April 11, 2000 in the Province of British Columbia and was transitioned under the Business Corporations Act (BC) on June 17, 2004. In September 2016, the Company changed its name to Argentina Lithium & Energy Corp. (formerly Iron South Mining Corp.) trading on the TSX-V under the symbol "LIT". The address of the Company's registered office is Suite 312 – 837 West Hastings Street, Vancouver, BC, Canada V6C 3N6.

The Company is a natural resource company engaged in the acquisition and exploration of resource properties in the Americas and Argentina. The Company presently has no proven or probable reserves and, on the basis of information to date, it has not yet determined whether these properties contain economically recoverable ore reserves. Consequently, the Company considers itself to be an exploration stage company.

The amounts shown as exploration and evaluation assets represent costs incurred to date, less option payment proceeds and amounts amortized and/or written off, and do not necessarily represent present or future values. The underlying value of the exploration and evaluation assets is entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain the necessary financing to advance the properties beyond the exploration stage, and future profitability of the properties.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to consolidated financial statements and to a going concern, which assume that the Company will realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company has experienced recurring operating losses and has an accumulated operating deficit of \$31,161,566 and shareholders' equity of \$7,199,271 at March 31, 2022. In addition, the Company has working capital of \$4,224,173 at March 31, 2022 and negative cash flow from operating activities of \$812,101. Working capital is defined as current assets less current liabilities and provides a measure of the Company's ability to settle liabilities that are due within one year with assets that are also expected to be converted into cash within one year. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's continued operations, as intended, are dependent upon its ability to raise additional funding to meet its obligations and to attain profitable operations. Management's plan in this regard is to raise equity financing as required. There are no assurances that the Company will be successful in achieving these goals.

On March 11, 2020, the World Health Organization declared the global outbreak of a novel coronavirus identified as "COVID-19" as a global pandemic. In order to combat the spread of COVID-19 governments worldwide have enacted emergency measures including travel bans, legally enforced or self-imposed quarantine periods, social distancing and business and organization closures. These measures have caused material disruptions to businesses, governments and other organizations resulting in an economic slowdown and increased volatility in national and global equity and commodity markets. Central banks and governments, including Canadian federal and provincial governments, have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of any interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021
(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### 1. NATURE OF OPERATIONS AND GOING CONCERN (continued)

The Company's business financial condition and results of operations may be further negatively affected by economic and other consequences from Russia's military action against Ukraine and the sanctions imposed in response to that action in late February 2022. While the Company expects any direct impacts, of the pandemic and the war in the Ukraine, to the business to be limited, the indirect impacts on the economy and on the mining industry and other industries in general could negatively affect the business and may make it more difficult for it to raise equity or debt financing. There can be no assurance that the Company will not be impacted by adverse consequences that may be brought about on its business, results of operations, financial position and cash flows in the future.

These condensed consolidated interim financial statements do not include adjustments to the amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

#### Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting ("IAS 34"), as issued by the International Accounting Standards Board ("IASB"), and its interpretations, using accounting policies consistent with International Financial Reporting Standards ("IFRS") and accordingly, certain information and note disclosure included in the annual consolidated financial statements prepared in accordance with IFRS have been omitted or condensed. These condensed consolidated interim financial statements should be read in conjunction with the Company's December 31, 2021 audited annual consolidated financial statements.

#### Basis of preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

#### Basis of consolidation

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned subsidiaries as follows:

	Place of Incorporation	Principal Activity
Amera-Chile Sociedad Contractual Minera	Chile	Holding company
Argentina Litio Y Energia S.A.	Argentina	Exploration company
Hierros Del Sur S.A.C.	Peru	Holding company

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated in preparing the condensed consolidated interim financial statements.

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021
(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Significant Accounting Estimates and Judgments

The preparation of these condensed consolidated interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates.

These condensed consolidated interim financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

i. The net carrying value of each mineral property is reviewed regularly for conditions that suggest impairment. This review requires significant judgment. Factors considered in the assessment of asset impairment include, but are not limited to, whether there has been a significant adverse change in the legal, regulatory, accessibility, title, environmental or political factors that could affect the property's value; whether there has been an accumulation of costs significantly in excess of the amounts originally expected for the property's acquisition, development or cost of holding; and whether exploration activities produced results that are not promising such that no more work is being planned in the foreseeable future. If impairment is determined to exist, a formal estimate of the recoverable amount is performed, and an impairment loss is recognized to the extent that the carrying amount exceeds the recoverable amount.

### Critical accounting judgments

- i. Presentation of the consolidated financial statements which assumes that the Company will continue in operation for the foreseeable future, obtain additional financing as required, and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due.
- ii. The determination of categories of financial assets and financial liabilities has been identified as an accounting policy which involves judgments or assessments made by management.
- iii. The analysis of the functional currency for each entity of the Company. In concluding that the Canadian dollar is the functional currency of the parent and its subsidiary companies, management considered the currency that mainly influences the cost of providing goods and services in each jurisdiction in which the Company operates. As no single currency was clearly dominant the Company also considered secondary indicators including the currency in which funds from financing activities are denominated and the currency in which funds are retained.
- iv. Management is required to assess impairment in respect to the Company's intangible mineral property interests. The triggering events are defined in IFRS 6. In making the assessment, management is required to make judgments on the status of each project and the future plans towards finding commercial reserves.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

v. There is significant judgment involved in assessing whether any indicators of impairment reversal exist for exploration and evaluation assets, with consideration given to both external and internal sources of information. Information the Company considers include changes in the market, economic and legal environment in which the Company operates that are not within its control that affect the value of the exploration and evaluation assets, including consideration given to comparable market transactions, plans to explore the property, and commodity prices.

During the three months ended March 31, 2021, management has determined there were no impairment indicators present with respect to the Company's exploration and evaluation assets.

New Accounting Standards and Interpretations not yet effective

The following new standards, amendments and interpretations have been issued but are not effective for the three months ended March 31, 2021 and accordingly, have not been applied in preparing these consolidated interim financial statements:

Amendments to IAS 37, Provisions, contingent liabilities and contingent assets (effective January 1, 2022) specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). This amendment is not expected to have any impact on the Company's consolidated financial statements.

#### 3. EXPLORATION AND EVALUATION ASSETS

The schedules below summarize the acquisition costs and all exploration expenditures incurred to date for each exploration and evaluation asset that the Company holds title to as at March 31, 2022 and 2021:

#### **Acquisition Costs**

For the three months ended March 31, 2022 and 2021

(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### 3. EXPLORATION AND EVALUATION ASSETS (continued)

#### b) Antofalla Lithium Project

On July 7, 2021, the Company entered into an option agreement with Trendix Mining ("Trendix") to earn a 100% interest in the three additional properties totaling 5,380 hectares ("Optioned properties") situated adjacent to the Company's 9,080 hectares of 100% held claims on the Salar de Antofalla ("Staked Properties"). Terms include staged payments over four years totaling US\$4,000,000, and annual exploration commitments of US\$7,000,000. The vendors retain a 2% Net Smelter Royalty ("NSR") which Argentina Lithium has the ability to repurchase for US\$5,000,000. Refer to Note 12 for further information.

	Exploration Expenditure

4,000,000	7,000,000	

#### c) Rincon West and Pocitos Project

On October 8, 2021, the Company entered into a definitive agreement with a private vendor to acquire 100% interest in the 2,370-hectare Rincon West and 15,857-hectare Pocitos projects in Salta Province, Argentina. Terms include issuance of 750,000 shares in the Company to the vendor on signing plus \$500,000 worth of shares over a 12-month period; and cash payments totaling US\$4,200,000 over 36 months but limited to only US\$1,050,000 in the first 18 months, US\$800,000 of which are cash payments over the first year. Refer to Note 12 for further information.

#### 4. CAPITAL AND RESERVES

Authorized Share Capital

The Company's authorized share capital comprised an unlimited number of common shares. The common shares do not have a par value. All issued shares are fully paid.

Details of Issues of Common Shares in 2022

There were no shares issued for private placement during the three months ended March 31, 2022.

Details of Issues of Common Shares in 2021

On December 10, 2021, the Company completed a non-brokered private placement financing of 2,155,500 units at a price of \$0.45 per unit for gross proceeds of \$969,975. Each unit consists of one common share and one transferable common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at \$0.70 per share for three years from the date of issue, expiring on December 10, 2024. Finders' fees were paid of \$67,898 cash and 282,135 non-transferable warrants exercisable into common shares at \$0.70 for three years from the date of issue with a fair value of \$62,005. Fair value was calculated using the Black-Scholes pricing model and the following variables: risk-free interest rate -0.93%; expected stock price volatility -136.60%; dividend yield -0%; and expected warrant life -1.564 years.

On November 30, 2021, the Company completed a non-brokered private placement financing of 4,996,333 units at a price of \$0.45 per unit for gross proceeds of \$2,248,350. Each unit consists of one common share and one transferable common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at \$0.70 per share for three years from the date of issue, expiring on November 29, 2024. Finders' fees were paid of \$105,158 cash and 102,434 non-transferable warrants exercisable into common shares at \$0.70 for three years from the date of issue with a fair value of \$28,554. Fair value was calculated using the Black-Scholes pricing model and the following variables: risk-free interest rate -0.92%; expected stock price volatility -140.60%; dividend yield -0%; and expected warrant life -1.561 years.

On November 10, 2021, the Company completed a non-brokered private placement financing of 6,108,504 units at a price of \$0.45 per unit for gross proceeds of \$2,748,827. Each unit consists of one common share and one transferable common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at \$0.70 per share for three years from the date of issue, expiring on November 10, 2024. Finders' fees were paid of \$80,794 cash and 179,543 non-transferable warrants exercisable into common shares at \$0.70 for three years from the date of issue with a fair value of \$47,751. Fair value was calculated using the Black-Scholes pricing model and the following variables: risk-free interest rate -0.97%; expected stock price volatility -143.41%; dividend yield -0%; and expected warrant life -1.569 years.

On April 14, 2021, the Company completed a non-brokered private placement financing of 8,484,500 units at a price of \$0.09 per unit for gross proceeds of \$763,605. Each unit consists of one common share and one transferable common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at \$0.15 per share for three years from the date of issue, expiring on April 14, 2024. Finder's fees were paid of \$3,900 cash and 43,330 non-transferable warrants exercisable into common shares at \$0.15 for three years from the date of issue with a fair value of \$3,914. Fair value was calculated using the Black-Scholes pricing model and the following variables: risk-free interest rate – 0.28%; expected stock price volatility – 152.13%; dividend yield – 0%; and expected warrant life – 1.551 years.

### 4. CAPITAL AND RESERVES (continued)

During the year ended December 31, 2021, 17,297,500 warrants were exercised for gross proceeds of \$1,867,625, and 525,000 stock options were exercised for gross proceeds of \$95,000.

Share Purchase Option Compensation Plan

The Company has a share purchase option plan (the "Plan") approved by the Company's shareholders that allows it to grant share purchase options, subject to regulatory terms and approval, to its officers, directors, employees and service providers for a maximum term of ten years. The Plan is based on the maximum number of eligible shares equaling a rolling percentage of 10% of the Company's outstanding common shares, calculated from time to time. If outstanding share purchase options are exercised or expire, and/or the number of issued and outstanding common shares of the Company increases, then the share purchase options available to grant under the Plan increase proportionately.

The exercise price of each share purchase option is set by the Board of Directors at the time of grant but cannot be less than the market price less allowable discounts in accordance with the policies of the TSX-V. Share purchase options granted generally vest immediately and are subject to a four-month hold period and are generally exercisable for a period of up to five years.

The continuity of share purchase options for the three months ended March 31, 2022 is as follows:

	Exercise	December			Expired/	March 31,	Options

#### 5. BASIC AND DILUTED LOSS PER SHARE

The calculations of basic and diluted loss per share for the three months ended March 31, 2021 and 2020 were based on the following:

	Three months ended March 31,		
	2022	2021	
Loss attributable to common shareholders (\$)	665,695	55,520	
Weighted average number of common shares outstanding	73,763,716	34,181,612	

Diluted loss per share did not include the effect of 3,873,750 (2021 - 998,750) share purchase options and 19,594,779 (2021 - 14,540,000) warrants as they are anti-dilutive.

#### 6. RELATED PARTY BALANCES AND TRANSACTIONS

Grosso Group Management Ltd.

On October 1, 2016, the Company entered into a Management Services Agreement ("Agreement") with Grosso Group Management Ltd. (Grosso Group) to provide services and facilities to the Company. Grosso Group provides its member companies with administrative and management services. The member companies pay monthly fees to Grosso Group on a cost recovery basis. The fee is based upon a pro-rating of Grosso Group's costs including its staff and overhead costs among the member companies. The fee is reviewed and adjusted quarterly based on the level of services required.

Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021
(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### **6. RELATED PARTY BALANCES AND TRANSACTIONS** (continued)

The Agreement contains termination and early termination fees in the event the services are terminated by the Company. The termination fee includes three months of compensation and any contractual obligations that Grosso Group undertook for the Company, up to a maximum of \$750,000. The early termination fees are the aggregate of the termination fee in addition to the lesser of the monthly fees calculated to the end of the term and the monthly fees calculated for eighteen months, up to a maximum of \$1,000,000.

#### 10. FINANCIAL RISK MANAGEMENT

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, currency risk, and interest rate risk. Where material, these risks are reviewed and monitored by the Board of Directors.

#### (a) Fair Values

The Company's financial instruments consist of cash, receivables, accounts payable and accrued liabilities, interest payable and loans payable. The fair value of cash, receivables, and accounts payable and accrued liabilities approximates their carrying values due to the immediate or short-term maturity of these financial instruments.

The following table outlines the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy described below. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

At March 31, 2022, the Company's financial instruments measured at fair value are as follows:

		Level 1	Level 2	Level 3
	\$	\$	\$	\$
	Carrying amount		Fair value	
	March 31, 2022		March 31, 2022	
Recurring				
measurements				
Financial Assets				
Cash	5,442,988	5,442,988	-	_

At December 31, 2021, the Company's financial instruments measured at fair value are as follows:

		Level 1	Level 2	Level 3
	\$	\$	\$	\$
	Carrying amount		Fair value	
	December 31, 2021		December 31, 2021	
Recurring				
measurements				
Financial Assets				
Cash	6,430,771	6,430,771	-	-

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021
(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

### 10. FINANCIAL RISK MANAGEMENT (continued)

#### (b) Financial Instrument Risk Exposure

#### Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents, and accounts receivable. The Company has reduced its credit risk by depositing its cash and cash equivalents with financial institutions that operate globally.

As the majority of the Company's receivables are with the government of Canada in the form of sales tax, the credit risk is minimal. Therefore, the Company is not exposed to significant credit risk and overall the Company's credit risk has not changed significantly from the prior year.

#### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on issuance of shares and warrants to fund exploration programs and anticipates doing so again in the future. See Note 1 for further information.

#### Market risk

#### (i) Currency risk

Financial instruments that impact the Company's net earnings due to currency fluctuations in cash and cash equivalents, and accounts payable usually denominated in US Dollars and Argentinean pesos. A 10% change in US dollar and the Argentinean peso exchange rates relative to Canadian dollar would have insignificant impact on the Company's net loss:

- A 10% change in the US dollar exchange rate relative to the Canadian dollar would change the Company's net loss by approximately \$2,500.
- A 10% change in the Argentinean peso exchange rate relative to the Canadian dollar would change the Company's net loss by approximately \$50,000.

#### (ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Cash bears no interest. The fair value of cash and cash equivalents approximates its carrying value due to the immediate or short-term maturity of this financial instrument.

Other current financial assets and liabilities are not exposed to interest rate risk because they are non-interest bearing or have prescribed interest rates.

#### (c) Capital Management

The Company's objectives of capital management are intended to safeguard the entity's ability to support the Company's normal operating requirements on an ongoing basis, continue the exploration of evaluation and exploration assets and support any expansionary plans.

(An Exploration Stage Company)
Notes to the Condensed Consolidated Interim Financial Statements
For the three months ended March 31, 2022 and 2021
(Unaudited - Expressed in Canadian Dollars Unless Otherwise Noted)

#### **10. FINANCIAL RISK MANAGEMENT** (continued)

The capital structure of the Company consists of equity attributable to common shareholders, comprised of issued capital, reserves and deficit. The Company manages the capital structure and makes adjustments in light of changes in economic conditions and the risk characteristics of the Company's assets.

To effectively manage the Company's capital requirements, management has in place a planning and budgeting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company has historically relied on issuance of shares to develop the project and anticipates doing so again in the future.

The Company is monitoring market conditions to secure funding at the lowest cost of capital. The Company is exposed to various funding and market risks which could curtail its access to funds.

The Company is not subject to any external covenants. There were no changes in the Company's approach to capital management during the three months ended March 31, 2022.

Additional information regarding capital management is disclosed in Note 1.

### 11. SUBSEQUENT EVENTS

Antofalla Project

The Company entered into an option agreement with to acquire a 100% interest in three granted mine concession properties totalling 5,411 hectares in the Salar de Antofalla in Catamarca Province, Argentina. Terms of the option include cash payments totalling US\$2,800,000 over four years, including mandatory commitments totalling US\$180,000 in the first twelve months. The option also includes mandatory annual exploration expenditure commitments of US\$500,000 in year one, followed by US\$1,500,000 in year two, US\$2,000,000 in year three and US\$3,000,000 in year four. The vendor retains a 2% Net Smelter Royalty which can be repurchased for US\$3,000,000.

Rincon West and Pocitos Project

The Company issued 306,624 shares and paid US\$250,000 of the option payment for the Rincon West and Pocitos project.
